Nine Years Partnering with the Federal Reserve	Visa Inc. first partnered with the Federal Reserve Bank of Chicago in 2007 to create and co-host the Financial Literacy Summit. The April 15, 2015 program's theme is <i>Improving Millennials' Financial Literacy with Mobile Technology</i> . Previous year's topics have included: global best practices in financial literacy education; the role of government; advancing financial stability and responsibility; and improving women's financial literacy globally. Panel discussions at the Summit advance financial literacy policy discussion with senior government leaders, and explore what works globally and by different countries specifically.
